Beautiful vases:

Flowers makes us happy, that is scientifically proven. A fresh bunch of flowers on the dinner table is the best decoration and bringing flowers as a gift is always a hit. Placing the flowers in a nice vase lifts the arrangement to higher levels.

The ROW vases looks amazing when you combine height and color and mixing two or more will make any dinner table look professional.

ROW is a new series of vases that are simple, yet interesting in shape. The slim design makes it perfect for a table setting where you can create a beautiful flower arrangement, that still gives room for plates and glasses. Row is available in three colors and in sizes: Two - 22 cm Three - 16 cm & 22 cm Four - 16 cm

The story of Mylla:

Michel Grandt is a german designer who has lived in Japan for many years. He is deeply inspired by the japanese way of tending to each detail and letting things take time.

The vases are produced in Portugal in a factory that has the experience of working with clay since generations. To get the right feeling in the apperance, we use a technique called faience, where you burn the goods in lower temperatures. This gives us the very silky soft surface that has a color with mini stains in it, to make it look exquisite.

The Mylla vases are a great example of what a skilled designer in collaboration with great craftsmanship can accomplish.

At Born in Sweden we LOVE candlelight and thereby also candleholders. Nothing has the possibility of instantly changing the mood in a room for the better like a lit candle. Cozy, warm, calming...

The two series "Nightlight" and "Puzzle" are available in the same colors: Stainless steel, copper and gold all in brushed finish and black in powdercoated finish. Puzzle also has a white powdercoated version.

Nightlight is inspired by the times before electricity, when you would have to bring a candle to the bedside table. Hence the name - Nightlight. Even if that is no longer necessary, candlelight still has the same calming effect.

Puzzle candleholders are possible to place in many different ways. Combine them as you like for your own personal candelabra. Along with every piece comes an optional rubber ring to stop the candle wax from dripping. Puzzle can be purchased as singles, in a two-pack or three-pack. They are also the perfect match with Sphere vases.

COOKING AND SERVING

Cook with passion, serve with heart! Food brings people together in the most meaningful ways.

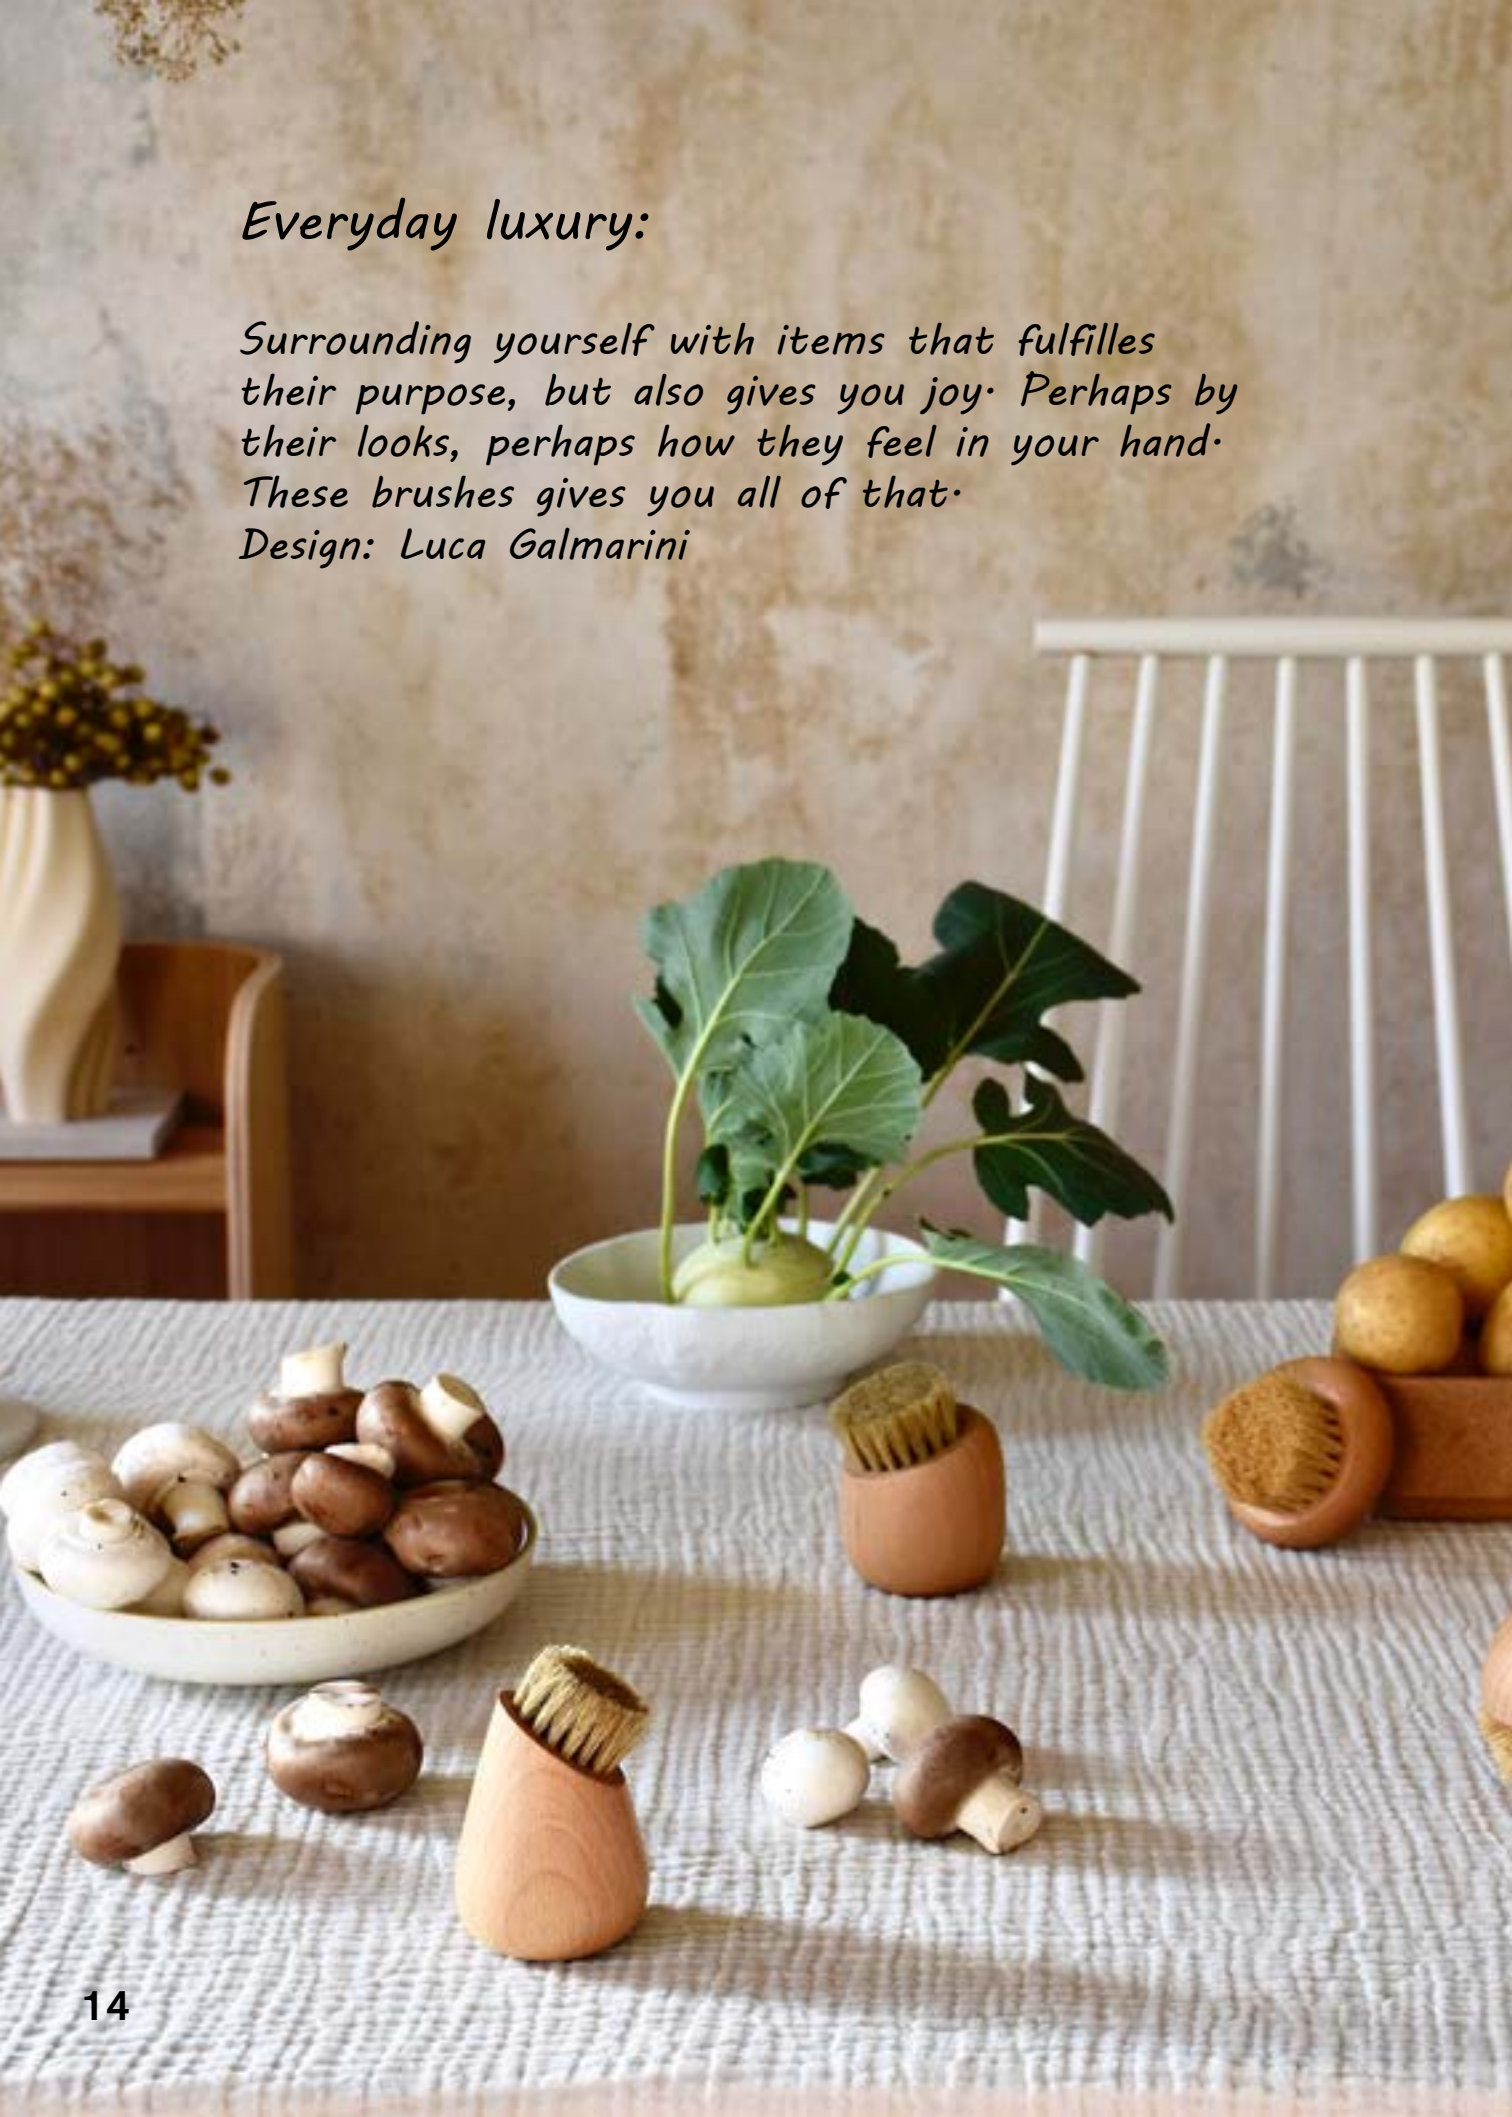

Cooking is more than preparing food—it's an expression of love and creativity. From the sizzle of ingredients in a pan to the final flourish on a plate, it's a journey that nourishes both body and soul.

Serving elevates the experience turning a simple meal into a shared celebration. A beautifully presented dish invites connection, sparking conversations and memories around the table.

Everyday luxury:

*Surrounding yourself with items that fulfills their purpose, but also gives you joy. Perhaps by their looks, perhaps how they feel in your hand. These brushes gives you all of that.

A beautiful tea towel is the perfect gift! A pretty decoration in your kitchen as well as an object to use each day. The tea towels are 50 x 70 cm and the dish cloths 18 x 20cm.

The swedish dishcloth! The BEST dishcloth to have in your kitchen - by far! It easily soaks up a lot of water, becomes soft and easy to work with when wet and when it dries it turns stiff again. The dish cloths are made in Sweden from cellulose which means they are completely environmentally friendly. You can wash them in dishwasher or washing machine and at the end - they are combustible!

HEX WINERACK

Design: Matz Borgström

Hex Winerack is not only a storage for bottles, it is a piece of art all by itself. The modules slide into each other one by one, which means you can build your winerack into various shapes in your own personal style. The winerack is made of extruded aluminum and you can choose if you want color on the outside or plain aluminum. With our super smart mounting plates you have the opportunity to hang it under a shelf or a cupboard. Otherwise it looks just as nice standing freely or against a wall.

FLYSWATTERS

Design: Pascal Charmolu

Along with the lovely summer days, comes the maybe not so welcome flies and mosquitos. A flyswatter is then a very handy tool for both indoor and outdoor use. We call ours "Wings", since it is designed to look like a fly with its two wings. This makes it cool enough to have it standing nearby at all times ready to grab and smack. Besides, this is a gift that you can be sure everybody needs.

FUEGO - OUTDOOR FIREBOX & BBQ

Design: Johannes Lindner

The campfire has been a gathering place for mankind since the beginning of time. Our fire box is a modern style camp fire as well as a BBQ, a piece of modern warming design.

It is made of Corten steel which is a sustainable and maintenance free material that will slowly change color from black to a rust red. The color changes through oxidation and creates an enduring surface that protects the steel underneath.

Along with each fire box comes a stainless steel grid for BBQ-ing, a stainless steel grid for the fire box.

FUEGO is available in two heights, 55 cm and 92 cm. The large one has an extra storage for wood underneath.

Nam-Nam is a flexible birdfeeder that can be used either hanging or standing. The rope for hanging the feeder is included in the package, but the stick is not. We use a regular broom stick that you can get in any hard ware store. Nam-Nam is a stylish birdfeeder for every garden. Made of porcellain and laquered wood.

BIRD BATH / BIRDFEEDER

Summertime, the birds need water to drink and they also like to splash some around and clean their feathers. This is a functional and sculptural object, that works in both a flower bed or a pot.

Cork:

A Sustainable and Versatile Material

Cork is a natural, renewable material derived from the bark of cork oak trees (Quercus suber). Native to the Mediterranean region, cork has been used for centuries for various applications, from wine stoppers to flooring. The unique properties of cork and its environmentally friendly production process makes it a valuable resource. We use recycled cork in all our products, to use this amazing material responsibly.

What is Cork?

Cork is the outer bark of the cork oak tree. It consists of a network of tiny air-filled cells, making it lightweight, elastic, heat resistant and water-resistant. This makes cork ideal for insulation, soundproofing, and of course design!

The Cork Harvesting Process

Cork farming is a highly sustainable practice. The cork oak tree is not cut down to harvest cork; instead, the bark is carefully stripped by hand, allowing the tree to continue growing. This process occurs every 9–12 years, as the bark needs time to regenerate. The first harvest, known as "virgin cork," occurs when the tree is about 25 years old. A single tree can live for over 200 years and be harvested multiple times during its lifetime.

Cork oak forests, play a crucial role in biodiversity and environmental health. For example; cork oak trees absorb large amounts of CO₂, helping combat climate change. Harvested trees sequester even more carbon as they regenerate their bark.

Stumpastaken was designed already in 1991, by Swedish designer Jonas Torstensson. He realized how many end pieces of candles we throw away and wanted to create something to reduce the waste. With Stumpastaken you can save all candle stumps, place them in this cool looking candle holder and safely burn them all the way down.

Since 1991, the Stumpastaken family has grown with various sizes of the candle holder, as well as a number of accessories and it has become a Swedish design classic.

Stumpastaken is made in Sweden from 100% recycled aluminum. All cork items are made in Portugal of 100% recycled cork.

There are five sizes available of this clever candleholder, five surfaces to choose from, as well as a number of accessories.

Combine the way you prefer and create a decoration piece that changes throughout the year and along with the seasons.

This is the first version of Stumpastaken, the one that designer Jonas Torstensson created as his degree project from the Architectural university in 1991. With its 16 candles it is really an impressive piece with many options of use.

The accessories available makes this so much more than a candle-holder. Stumpastaken with a grid is a practical and elegant solution for keeping tea, coffee, or light food warm.

Use your imagination and this is an ever changing product!

When you place Stumpastaken on top of a stand it becomes a piece of furniture. A statement piece that catches the eye and feels a bit like a fire place.

LONG - 4 CANDLES

Long- four candles in a row, makes it perfect for placing in a window or in the middle of a tablesetting. Of course also a very safe and stylish Scandinavian Advent candleholder. Combine with the bowls intended for Long, or with the cork bottom tray for original. Two different styles and different ways of use.

ETTAN - 1 CANDLE

Size: 8,5 x 8,5 x 4 cm

Ettan- the smallest and cutest version of Stumpastaken. Easy to place as a single or in a pair. It is, just like the rest of the products in the Stumpastaken family, made of 100% recycled aluminum and is therefore a sustainable and responsible design item.

HURRICANE LAMP:

Ettan is also available as a complete gift set, with a candleholder, a cork bowl and a wind protection glass. You can choose any combination you like, color of the candleholder and cork bowl. Here we show the most common ones.

HAND MADE SWEDISH CANDLES

Perfect for Stumpastaken

We are very proud to be able to offer these high quality, hand dipped candles made in Sweden. These candles are made of a mix of RAL- certified paraffin and plant based stearin for the best stability and a steady flame. The Born in Sweden candles are hand made at a small Swedish factory with a long experience of producing luxurious candles, with the special look that no machine can ever create.

HALLWAY

The hallway is the first impression of your home. A warm, inviting hallway doesn't just welcome guests; it also creates a sense of comfort and belonging every time you walk through the door.

*Do you have animals? Then maybe you should consider a door knocker instead of a doorbell?
For both animals and humans - a welcoming hallway is an investment in your inner peace. Every day.*

PLAY HOOKS -

They got their name from the way the light plays on their slightly concave surface. This makes them more than merely a wall hook - they become a piece of art on the wall. Choose between white, black or natural ash. Size small is also available in walnut.

Diameter sizes:

L: 11 cm, M : 9 cm, S: 6 cm

Sold as singles or 3-packs in mixed sizes

BATHROOM

A well-designed and pleasant bathroom environment can significantly enhance your overall well-being. As one of the most frequently used spaces in the home, the bathroom serves not only as a functional area but also as a place for relaxation and self-care.

Clever storage solutions and aesthetically pleasing décor contribute to a room where it is enjoyable to be.

The bathroom organizer is one of our most clever products. It is absolutely necessary to have storage for extra toilet paper somewhere, so why not store it in style?

Here you can place some nice looking glossy magazines and keep the toilet rolls in the middle. Two functions, and a very thoughtful and inviting detail in a bathroom.

Choose between white stoneware / ash wood, or black stoneware / walnut.

APPLE CANDLE HOLDER

In scandinavia, people have decorated their homes with apples since generations. Real ones, but also wooden ones and all kind of styles. Our Apple candleholder is a homage to the traditional style and a flirt with the modern. The round shape makes it easy to place and a beautiful source of light where ever you place it.

keeps the darkness away"*

CHRISTMAS TREE HOLDER

The Christmas tree holder is a steady piece that holds even really big trees. We call it Root, since it is designed to make you think of a large root, or if you prefer a shiny irregular star. It is made of recycled aluminum and has a polished finish. Pascal Charmolu designed it already in 2008 and it has since then become a loved and appreciated Born in Sweden classic.

When temperature drops, there are few things that beats sitting by a sparkling fire. Fire wood is of course a necessity, but the logs also give a beautiful and cozy atmosphere. Storage is crucial but sometimes a bit forgotten when it comes to looks. This lovely fire wood holder is practical in the sense that it is easy to carry and at the same time it enhances the area around the fireplace and gives it a new design level. Infinity is available in powder coated black or white finish. Design: Studio So-Lo
